

ZMART

MICRO SILICA/QUARTZ

COMPANY PROFILE

Company Overview

Zmart Quartz is a leading and trusted supplier of premium, high-purity minerals dedicated to serving industries across the Gulf Cooperation Council (GCC) region. Our minerals are sourced exclusively from South India's finest mines, guaranteeing consistent quality and reliability for clients throughout the area.

Commitment to Quality

At **Zmart Quartz**, we are committed to providing only the highest purity minerals to our customers. Each batch undergoes rigorous laboratory verification to ensure it meets stringent quality standards. For clients with specialized requirements, we offer comprehensive laboratory quality reports, ensuring complete transparency and confidence in every product we deliver.

TEST REPORT

Product Catalog

◆ Micro Silica

Zmart Quartz also supplies Micro Silica (composed of SiO_2 , Al_2O_3 , and Fe_2O_3 in the range of 85–95%) with a moisture content of less than 1%. The bulk density ranges from 550 to 700, and the specific gravity is between 2.2 and 2.5. Our Micro Silica is supported by laboratory results approved by the Government of India and is sourced from a leading industry based on the west coast of India.

Technical Data

Characteristic	Unit	Typical Range
Physical Properties		
Specific Gravity		2.20 - 2.40
Bulk Density - Densified	kg/m ³	500 - 700
45 Micron Sieve Retained	%	1.6
Chemical Properties		
$\text{SiO}_2 + \text{Al}_2\text{O}_3 + \text{Fe}_2\text{O}_3$	%	≥90
LOI	%	1.2
Moisture Content	%	Less than 1
Pozzolanic Activity Index	%	113
Magnesia (MgO)	%	0.18
Calcium Oxide	%	0.29
Mechanical Properties		
Compressive Strength (28 days, with OPC)	MPa	120-140
Flexural Strength (28 days)	MPa	8 - 12
Splitting Tensile Strength	MPa	5 - 7
Modulus of Elasticity	GPa	25 - 35
Abrasion Resistance	-	30-50% higher than OPC mixes
Permeability (Chloride Penetration)	Coulombs	< 1000 (Very Low)

◆ Quartz Lumps (97–99.5% SiO₂)

Premium high-purity quartz sourced from owned mines in west cost of India. offering consistent quality and low impurities—ideal for glass, ceramics, foundry, and industrial applications.

◆ Quartz Powder (100–400 Mesh)

Fine-grade quartz powder uniform mesh, high purity, and ideal for ceramics, paints, foundry, and industrial applications.

◆ Quartz Grits (0.1–5 mm)

Premium, high-purity quartz grits—consistent size, low impurities, ideal for glass, ceramics, and industrial use.

◆ Transparent Glossy Quartz Stones

High-clarity, glossy transparent quartz stones—superior purity and brilliance ideal for high-end industrial and decorative applications.

◆ Pegmatite / Feldspar

High quality, consistent composition, excellent whiteness, ideal for ceramics, glass, and industrial applications.

◆ Mica Flakes & Scrap

Clean, quality mica, excellent sheen and durability for insulation, paints, and industrial applications.

◆ Raw & Expanded Vermiculite

lightweight, heat-resistant, and ideal for insulation, agriculture, and industrial applications.

◆ Decorative stone pebbles

Premium natural pebbles, smooth, durable, and ideal for landscaping, interiors, and decorative applications.

Why Choose Zmart Quartz?

- ◆ High-purity minerals suitable for various industrial applications
- ◆ Competitive pricing designed to deliver exceptional value
- ◆ Jumbo-bag packaging for efficient handling and transportation
- ◆ Prompt response to all inquiries via WhatsApp
- ◆ Availability of free samples (freight charges apply)
- ◆ Monthly supply contracts for consistent and reliable delivery

Exporting Details

*Export Ports: Chennai and Tuticorin
Loading Capacity: 25–30 metric tons per container*

GCC Head Office : KUWAIT
